

WHEEL OF FORTUNE

The ways of activating the Wheel of Thunder in the main game and free spins are different.

In the main game, 5 or more bonus symbols falling anywhere on the reels entitle you to spin the Wheel.

The values of all bonus symbols are summarized on the screen above the reels before the Wheel is started.

A Wheel spin is guaranteed after the free spins are completed if at least one bonus symbol is landed on the reels during the prize game (for all free spins, all bonus symbols are totaled).

The available prizes on the wheel are x2, x3, x4, x5, x8, x12 multipliers

To start the Wheel, you need to press the Start button.

When the wheel stops, the value of the bonus symbols in the center of the screen will increase by the Wheel multiplier.

The Wheel prize pool and the winnings on the paylines are totaled.

FREE SPINS

You can win 10, 15 or 20 free spins.

After each free spin, all values displayed on the bonus symbols are added to the screen above the reels.

A Wheel spin is guaranteed after the free spins have been completed if at least one bonus symbol appears on the reels during the prize game.

The Wheel free spins wins and payline wins are added together.
